
Sensor system
Camera (Open MV)
Image data
Visual recognition subsystem
Via the port
Ultrasonic sensor (For SPIKE)
Distance data
Distance measurement subsystem
Via the port
Gyro sensor (Built-in SPIKE)
Angular velocity data
Posture measurement subsystem
Internal data
Control system
Route planning and driving strategy subsystem
(Main program in SPIKE Prime Hub )
Target speed and target steering angle
Actuator control subsystem
(Use the SPIKE built-in motor encoder)
Control signal
Power supply and drive system
SPIKE L motor (Steering)
SPIKE M motor (Straight line drive)
Drive and steering subsystem
Battery power
Power management subsystem (A battery)
